All frames prepped for wood casing (supplied by others).

See Submittals Pg. 18 for Casing Details and Dimensions

Standard Steel Casing

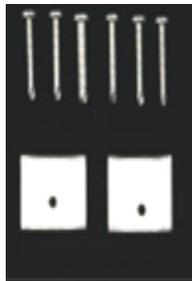

Colonial Steel Casing

Snap-On Casing Spring Clips

Snap-On Casing Aluminum Clips (for Post Install)

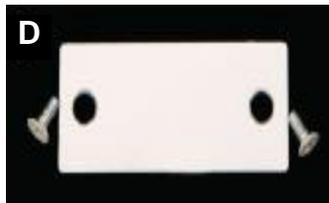

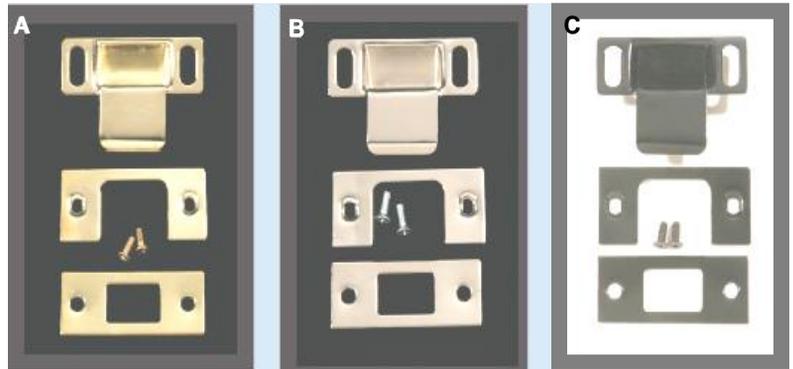

Casing Corner Bracket

Casing Corner Bracket (Colonial)

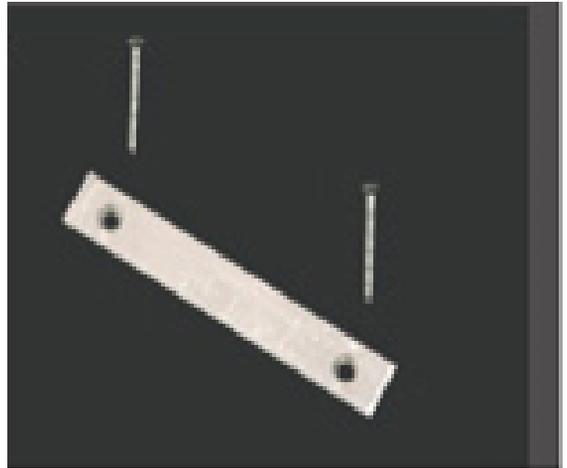

**FRAME HARDWARE**

- 1. 2-3/4" Adjustable T-strike allows for field adjustment for optimal door operation
- 2. Finishes available; Dull Brass, Brushed Nickel, Black Nickel (A,B and C)
- 3. Matching deadbolt plate
- 4. Optional prime painted deadbolt cover plate when no deadbolt is scheduled (D)
- 5. Deadbolt strike dust cover (J)

## **SURFACE MOUNTED HARDWARE REINFORCEMENTS**

- 1. Regular Arm Closer Reinforcement  
where closure is mounted on the pull  
side of the door**

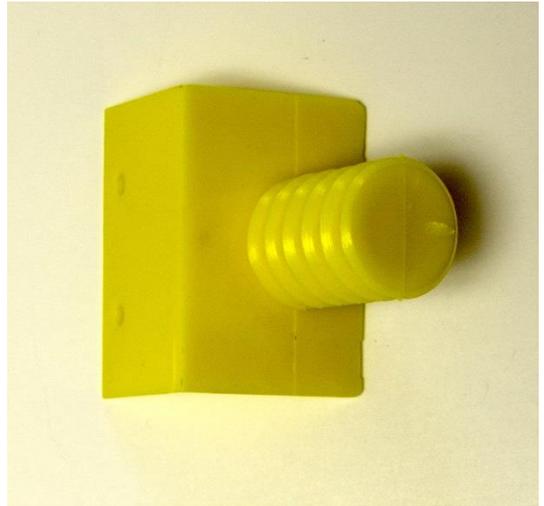

- 1. Parallel Arm Closure Reinforcement  
where closure is mounted on push  
side of door**
- 2. Rim Exit Reinforcement where Rim  
Mounted Strike is secured to latch  
jamb**
- 3. Utilizes two sided tape for easy,  
permanent and secure mounting of  
hardware**

## **PRE-HANG CLIP for KA SERIES FRAMES**

- 1. Heavy duty clip provides for secure attachment of latch side of door to strike jamb**
- 2. Helps to maintain margins thru installation of pre-hung door unit**

## **CORNER SEALING PADS for KA SERIES FRAMES**

- 1. Peel away non stick paper allows for easy installation of adhesive surface**
- 2. Corner seals help to close gaps between door frame and weatherstrip and door edges for better sealing and water infiltration resistance**
